

VINCENT NDEREBA NDUBI

Nairobi | 0790194570 | ndubivincent70@gmail.com

Objective Statement

Passionate Solutions Developer eager to solve real-world problems through technology. Equipped with a strong foundation in full-stack development, including Laravel, Vue.js, and React. Driven to create value by building user-centric systems that are both technically robust and effortlessly easy to interact with.

EDUCATION

Co-operative University of Kenya

Bachelor of Information Technology

- Completed coursework

Expected graduation: December 2026

EMobilis Technology Training Institute

AWS cloud practitioner Certified

Graduated: 9th May 2025

Meru School

- Completed high school studies in April 2022.

PROJECTS

COOPCONNECT | Full-Stack Developer

- Designed and developed a centralized social networking platform to break down campus communication silos, fostering higher student engagement and community connection.
- Implemented a real-time "Happening Now" feed, solving the problem of fragmented information by giving students immediate access to critical campus updates and events.
- Engineered robust backend architecture utilizing the LAMP stack and Laravel framework to seamlessly support an active student user base.
- Repository: <https://github.com/vinnindubi/taskifyproject.git>

TASKIFY | Team Lead & Developer

- Led a development team to design and build a multi-sided platform connecting clients with diverse service providers, ranging from digital tasks to manual services like plumbing and accounting.

- Developed core functionalities enabling clients to post detailed service requests and allowing providers to seamlessly bid on or accept jobs.
- Implemented system capabilities to support agreed-upon pricing and track service transactions.
- Technologies: HTML, CSS, JavaScript, MySQL, Git/GitHub.
- Repository: <https://github.com/vinnindubi/taskifyproject.git>

SKILLS

Frontend Development

- Proficient in HTML5, CSS3, JavaScript, React, Vue.js
- Experience in creating responsive UI design and component libraries using Bootstrap, Tailwind, and advanced Vue UI libraries like PrimeVue and Vuetify.

Backend & Databases:

- Strong in PHP (Laravel framework) and MySQL (schema design, queries, relationships and migrations).
- API design, integration and testing.

Cloud & Infrastructure:

- AWS Cloud Practitioner Certified, EC2, VPC, IAM, Auto Scaling, Cloud Security.

Version Control & Methodologies:

- Git/GitHub/GitLab, Agile team collaboration

Experience

Intern Software Developer

Content Aggregation Limited – Nairobi, Kenya | July 2025 – Present

- Collaborated with a team of developers to build and maintain Laravel and Vue.js applications.
- Contributed to the development of Talent Bridge, a job-matching platform for job seekers and employers.
- Assisted in testing and quality assurance for client-facing applications, including Weego Ride and Citizen Duka, ensuring system reliability and optimal performance.
- Collected and analyzed user feedback to improve usability and enhance product features.
- Gained practical experience in team-based development, version control (Git) and agile project collaboration.
